The Best Range of Family Air Tents... Available for 2017 from Outdoor Revolution

**OUTDOOR
REVOLUTION**
WWW.OUTDOOR-REVOLUTION.COM

Outdoor Revolution has created the ultimate, most innovative and reliable products for 2017 to ensure the very best experience of the great outdoors. Established in 2003, Outdoor Revolution has continually led the market with technological advances to maintain the status as the most aspirational manufacturer in the Inflatable Family Tent market. The range for 2017 has taken the very best features of new technologies available to design, manufacture and provide the most aspirational products available, whilst offering unequalled value for money...

...Do not settle for second best!

As the Pioneers and Innovators within this field, **Outdoor Revolution** are so confident in the reliability of product with an Intelligent Frame that we offer a ***LIFETIME GUARANTEE** on the Air Tube with an IF Valve...
Inspiral frames & Dura-tech welded products now carry a *3 year tube warranty.

Designed in the UK for the UK...

Our design team has created the most reliable, easy to erect and luxurious products on the market to echo the changes in outdoor living and our consumer's expectations.

Our mission was simply to create the most desired range of tents using only the very best fabrics and component parts available.

In our 14 years we have led the market and continued to evolve our signature designs to ensure we have the most aspirational products available.

Outdoor Revolution hasn't just created tents; we have created unique, versatile, practical and flexible additional space for families to enjoy their leisure time.

Often copied, but never equalled...

**...buy from the innovators,
not the imitators!**

Why buy an Outdoor Revolution Product?

Following the success of 2016 and in line with our ambitions and ethos, we are determined to continue our mission to create market leading technology with parities in regard to quality. We have dedicated lines of manufacture to ensure consistency of expertise, exceptional quality control processes, combined with an offer of unequalled value for money. We have the most reliable inflation system on the market and best weatherproof and fade resistant fabrics. We have introduced some exciting new additions to the current line-up of features, affording true stand-out products and a must-have brand for the end-user.

Oxygen Air Frame

The exclusive Oxygen Air Frame is the easiest and neatest inflation system on the market with no adjoining pipes or taps spoiling the clean lines of our beautiful designs. The Oxygen Air Frame incorporates the Dynamic Speed Valve and the patented Intelligent Frame Relief Valve. Inflation is an incredibly fast process with the dual action pump provided and deflation is just the push of a button. We are the only tent manufacturer to use the Relief Valve. This prevents damage to the tube by expelling any excess air which can be caused by either over inflation or increases in the ambient temperature. The valves are discretely concealed by a Velcro cover.

Condensation Explained

Condensation is a completely natural occurrence which happens when warm air meets cold surfaces, also the average adult breaths out a litre of water vapour every day. All Outdoor Revolution products are protected with a durable water repellent treatment and all seams are heat sealed. This process prevents water ingress, but can also prevent the moisture trapped in the air from escaping, causing condensation. To help ease condensation we have added multiple ventilation points on every product, mesh fly screens on doors, as well as dual zip windows and doors, to maximise airflow and help reduce any condensation. We would also recommend taking a micro-fibre travel towel to wipe the roof or walls of the product if condensation appears, in order to help speed up the drying process.

Pioneering Technology

Phoenix mesh is an assisted-healing ‘smart’ material that has the structurally incorporated ability to repair ‘snag’ damage caused by usage over time. We have taken the inspiration from biological systems which have the ability to heal after being injured. Simply manipulated, the mesh will return to its original form.

Dura-tech welded technology - due to the success of the welded single inflation point, this technology will be expanded in to additional products; providing the most efficient, simple and reliable technology on the market. This carries a 3 year tube warranty.

Lounge Liners interior roof liners offer added insulation and a touch of luxury to the tents interior, creating a more pleasant living space. Helping to keep heat inside on cooler nights and helping to reduce condensation.

Pro.Climate.

Climate Fabric incorporates years of learning to provide a high performing man made fibre with the breathability of polycotton. This superior fabric provides the ultimate performance of any tent fabric, marrying the water repellent properties of polyester with the comfort of natural fibres. We are the first commercial manufacturer to introduce this fabric. Another first for Outdoor Revolution.

600^{HD}drsEndurance.

The 600HD Endurance double rip-stop fabric is the most robust of all of our tent fabrics. Woven using the latest textile manufacturing techniques to provide the maximum longevity and performance of any premium tent fabric. The fade resistant fabric ensures a superb quality, high performing product.

250^{HD}drsEndurance.

The double rip-stop in the 250 High Density fabrics ensures the optimum strength to weight ratio of any fabric. All of the Outdoor Revolution fabrics are woven using the latest textile manufacturing techniques to provide the longevity and performance of much heavier denier fabrics without the impracticality and constraints of their weight.

150^{HD}HexEndure.

The 150 High Density Fabric is designed to deliver light weight yet robust products, allowing smaller pack sizes when folded where weight and space limitations are of consideration. The complementary Hex detail on the fabric give a distinct contemporary look to ensure the product stands out from the crowd.

68^{HD}HexEndure.

The 68 High Density Fabric is designed to deliver Outdoor Revolution’s lightest weight products. This super lightweight advanced material allows incredibly small pack sizes when folded where weight and space limitations are essential. The Hex detail on the fabric gives a distinct modern look and is used on product designed specifically for impulsive occasional use.

Tailoring the fabrics to each product...
ensuring optimum strength to weight ratio.

NEW
2017 Model

“The Ultimate Airframe Tent with outstanding new design features...
Setting the standards by which all large family air tents will be judged”

Shown with optional O-Zone Canopy (p.11)

The spacious interior of the O-Zone 6.0 XTR Vario.

Outdoor Revolution's 'Flagship Family Tent'; the O-zone 6.0 XTR Vario is brand new for 2017. Based on our best-selling 6.0 XTR with the addition of new outstanding features, including a Vario door system that can move back and forth to create additional living space or an integrated porch area.

Manufactured using Outdoor Revolution's 250 high density double rip-stop endurance fabric, which provides the optimum strength to weight ratio of any tent fabric. The 6.0 XTRV is constructed with 5 single Oxygen airframe tubes which can be easily inflated using the double action pump provided.

The Oxygen airframe utilises the Dynamic Speed Valve; the fastest and easiest inflation system on the market, in conjunction with our unique patented 'Intelligent Frame' Relief Valve which self-regulates the air pressure in the tube with changes in the ambient temperature to release surplus air; ensuring there is no damage done to the tube through air expansion on hot summer days.

The Vario zip out Door System allows the front door to be fully zipped out and zipped further back inside the tent to create a spacious porch area on warmer days.

The 6.0 XTRV comes complete with a 6 person inner tent but can also accommodate an additional 2 person sleeping pod, which with the inclusion of an optional solid door can create a separate sleeping area at the front of the tent which is separated from the main sleeping area to provide additional privacy.

All mesh ventilation panels have been constructed from Outdoor Revolution's Phoenix Mesh – a smart self-repairing mesh which has the ability to 'self-heal' any minor snags by simply manipulating the fabric back in to shape.

Vario Door set internally to create a functional open front.

Pro.Climate.

Shown with optional 'Phoenix Mesh Vario Door' set in front position.

Shown with optional O-Zone Climate Enclosed Porch Canopy (p.11)

The Outdoor Revolution O-Zone 6.0 XTR Vario Climate is the Ultimate Large Family Breathable tent.

Incorporating all of the innovative features of the standard O-Zone 6.0 XTR Vario, including the versatile moveable front door to create additional living space or a large porch area. Crafted in Outdoor Revolution's exclusive breathable Climate fabric, with the look, feel and breathability of natural fibres and the strength and durability of man-made material.

This superb large family air-framed tent is ideally suited for summer breaks in warmer climes, where breathability and optimum comfort is a prerequisite; reducing interior humidity and condensation.

The 6.0 XTR Vario Climate has lots of optional extras available, including a Climate enclosed canopy, Climate fabric front door, Phoenix mesh door and extra double inner tent to increase the sleeping capacity up to 8 persons if desired.

Shown with 'Vario Door' set back into the internal position.

O-ZONE 6.0 XTR VARIO - ACCESSORIES

O-Zone 6.0 XTR Vario SNUG RUG - Designed to give additional luxury under foot, the Snug Rug has a thermal backing and padding to ensure additional comfort to any stay. The Snug Rug comes complete with moveable 'door mats' to accommodate muddy footwear.

O-Zone 6.0 XTR Vario LOUNGE LINER - Designed to create a relaxing home from home ambiance to the interior of the tent. Provides gentle shade from any roof glare in bright conditions. The added layer of insulation helps to keep the tent cool on warm days, warmer on cool days by creating an air pocket between the liner and the tent roof, beneficial to reducing morning condensation.

2 PERSON INNER TENT - Clip in inner tent provides fantastic additional sleeping space for overnight guests. Made from cool grey microfibre fabric to assist in a comfortable night's sleep and plenty of mesh venting to ensure great air circulation.

ENCLOSED CANOPY

The **O-Zone ENCLOSED CANOPY** is a superb addition to the O-Zone 6.0 XTR Vario, creating additional space and protection from the elements; great for providing extra shelter for cooking and entertaining on hot summer days or alfresco dining on an evening. The Enclosed Canopy also provides incredible storage space for bikes or furniture etc, ensuring the main living space of the tent is as comfortable as possible.

O-Zone 6.0 XTR Vario MESH DOOR - The standard door can be replaced by the optional Mesh Door. The Phoenix Mesh Door increases airflow whilst helping to prevent insects entering the tent, or pets and small children from escaping.

Phoenix self healing mesh

O-Zone 6.0 XTR Vario SOLID DOOR - This addition really utilises the full potential of the O-Zone 6.0 XTR Vario, enabling the user to create a superb concealed storage space or a divided sleeping compartment for overnight guests or older children.

O-ZONE CANOPY

The **O-Zone CANOPY** simply zips on to the front of the tent to provide a fantastic sun canopy, or great covered cooking space. Simplistic in design and minutes to put up, this essential addition packs down easily and neatly into its own individual carry bag.

“The simplicity, speed & ease of the Inspiral endoskeleton air frame...
An inspirational design with aspirational looks”

The **Inspiral 5.2** is an incredibly versatile family tent, designed to sleep up to 5 people, with the ability to clip in an additional inner tent to increase the sleeping capacity to 7 people. The ingenious Inspiral frame provides time saving benefits due to the exclusive endoskeleton air frame that spirals though the tent, making inflation and pitching amazingly easy as the tent inflates to its predesigned form.

The ample and incredibly versatile living space plus useful sun canopy provides a superb base for memorable family holidays.

An integral front canopy provides shade, additional shelter from wet weather and can conveniently be toggled back safely in windy conditions.

CROSSOVER - MODERN BELL TENT

NEW
2017 Model

“The traditional Bell Tent gets a modern makeover...”

Phoenix Self Healing Mesh Zip-Down Curtains Quick Draw Guying Fully Zipped Doors Multiple Air Vents

The **Crossover Tent** is perfect for small families or couples sleeping up to 4 people in two divided double bedroom compartments. This product has the nostalgic design of a traditional bell-tent, combined with an integrated front porch, high-quality modern materials and a contemporary finish!

The 600HD fabric provides the optimum strength-to-weight ratio of any fabric on the market. The engineered Double-Rip Stop weave provides a contemporary look and feel, whilst isolating accidental tears to the fabric. The fabric is exceptionally water-resistant and water will simply bead on the surface and roll-off.

The tent is easily pitched using two internal steel poles and there are two Front Canopy Poles to create an additional large, functional shelter with added protection from the elements.

An optional front zip on canopy can be added to extend the front of the tent, providing further exterior shade and shelter.

Full panel zip back front door.

Fully opening side porch doors with Phoenix mesh panels.

Living Area Height - 255cm
Front Porch Height - 200cm

Spacious interior with 4 person inner tent. Showing optional Snug Rug.

Zipped Cabin Doors

Multiple Air Vents

The **Airedale 5.0** is the smallest of the Airedale range and is superb for weekends away for families or longer holidays for couples. The dramatic styling is enhanced with the Hex Endure fabric, to give clean design lines with a technical look.

The lightweight, yet robust fabric ensures the Airedale 5.0 is quick and easy to erect with the assistance of the 3 Oxygen Air-Frame tubes, each fitted with a Dynamic Speed Valve and Outdoor Revolution's patented Relief Valve, which safeguards against over inflation.

The tent has ample living space and has a handy sewn on canopy to give additional flexibility. The bedroom compartment is made from cool grey micro polyester to give clear lines of delineation between the sleeping and living space and to aid a good night's sleep.

New for 2017 - Two thirds zip back front door.

Compatible with the new clip on cooking wind shield - Camp Kitchen p.30

Outer Height - 210cm
Inner Height - 195cm

Large side door Phoenix Mesh ventilation panel.

2017 Model

“The spacious and innovative Airedale 6.0 airframe tent.
Style, practicality and value come together in this stunning air tent”

150^{HD} Hex^{co} Endure.

Upgraded for 2017 - front security zip-back plain door.

Phoenix mesh door panels.

Optional clip in 2 person inner tent.

Large 6 person sleeping inner with multiple divider options.

Outer Height - 210cm
Inner Height - 195cm

The **Airedale 6.0** was the best-selling family tent in 2016 and is set for a repeat performance in 2017. A truly outstanding family tent that has the perfect footprint, including three flexible bedroom compartments, large living space and a spacious porch area.

There is a solid zip back front door, a new addition for 2017 which provides additional security and storage space whilst the porch is not in use. The Airedale 6.0 has the ability to clip in an additional double inner tent, offering the potential to accommodate 8 adults.

All windows are tinted and have 100% zip in privacy blinds which gives a contemporary feel and also reduces glare from the sun.

The Airedale 6.0 has both low level and high level vents, to generate airflow to help reduce condensation and also a Phoenix Mesh fly screen on the door to increase air circulation further on hot days.

OXYGEN AIRFRAME TENT // LARGE FAMILY

Features

- Fabric: **150^{HD} Hex^{co} Endure.**

Rear Sleeping Pods

The **Airedale 12.0** is Outdoor Revolution's largest tent with three separate sleeping pods able to accommodate 4 people each. The 2017 model has a re-designed inner tent that gives increased head height compared to previous models.

New for 2017 are the two central skylights that illuminate the ample central living area, making this space incredibly usable.

The Airedale 12.0 has a fantastic front porch to give shelter from the sun's rays or a great space for cooking. The porch has an integral solid security door which creates a 'garage space' for furniture, bikes or other equipment.

There is both high level and low level pod ventilation, essential for maximising air circulation and in minimising condensation when so many people are sleeping in a tent.

The Airedale 12.0's striking looks are matched perfectly in it's practicality, usability and utilisation of space.

Upgraded for 2017 - front zip-back plain door.

Upgraded for 2017 - front zip-back plain door.

Large 4 person sleeping inners with multiple divider options.

“An incredibly quick and easy to erect single tube
airframe occasional tent with a revolutionary twist”

Shown above with optional canopy poles - sold separately.

Quick Draw Guying

Maple Leaf Curtains

Hex Print Fabric

Outdoor Revolution's **Hendrix** is the most convenient, small single-inflation-point air-tent on the market for 2017. An ideal accompaniment for festival goers or spontaneous trips with its lightweight properties, simplicity and rapid inflation.

The Hendrix utilises the celebrated Inspiral single inflation system. The tube neatly weaves throughout the tents inner to create a solid frame which can be inflated within seconds using the dual-action pump provided. Tinted quarter light windows are a new introduction for 2017.

The ultra-lightweight 68HD Hex Endure fabric is designed to pack down quickly and easily into the small carry bag provided. This tent is ideal where weight, pack size and speed are of the essence. The fabric has a contemporary Hex style print to compliment the product's simple, clean design lines. The fabric is exceptionally water-resistant and water will simply bead onto the surface and roll-off!

Large rear ventilation point.

Inspiral Single Tube, Single Inflation...

...for Speed, Simplicity & Strength

Front Height - 145cm
Rear Height - 130cm

Graphite Steel Frame
500D Plain PVC Fabric
Packed in Carrying Bag

Size: 62cm x 52cm x 47cm
Max Load Weight: 100kgs

The **TECH-PEG** is a technical tent peg, designed with a tough double sided peg head for holding guy lines and pegging down points safely and securely. The twisted nail shaft helps to achieve better grip and easier insertion into awkward ground. Sold conveniently in their own durable storage box with integrated peg cleaner in the box lid for cleaning dirty pegs before putting them away.

The **DELUXE STORM KIT** incorporates all you need to secure your awning or tent in stormy conditions. The kit includes 15 Tech-Pegs for easy pegging and firm hold, 2 adjustable Endurance Storm Straps and a cleverly designed, curved handled mallet, ergonomically designed to aid when placing pegs at awkward angles.

The **ANGLE MALLET** is cleverly designed to help place pegs into the ground at the correct angle. The weighted mallet head makes light work of placing pegs into hard ground. Incorporating a handy peg puller at the end of the handle.

The **MULTI MALLET** is a technical mallet with multi functional features that make it a 'must have' camping accessory for everyone. Incorporating an extending peg puller to help prevent back ache caused by bending over when extracting pegs. This conveniently retracts back into the lightweight alloy handle when not in use. A handy brush peg cleaner can be accessed to clean up those dirty pegs before putting them away. A weighted rubber mallet head makes light work of knocking pegs into hard ground.
