

No one knows how to make air awnings quite like how Outdoor Revolution know how to make air awnings...

For 2018 Outdoor Revolution have crafted the most unique, desirable and versatile caravan awnings that are not only aesthetically pleasing but also superbly practical, providing luxurious conservatories for your caravan. In the nonstop world we live in, leisure time has become increasingly important for families; Outdoor Revolution strive to facilitate this precious family time by creating the most reliable, easy to erect and quality controlled products on the market today.

Working from our head office in the heart of Yorkshire we take great pride in ensuring that all our products are carefully designed with attention to every detail, utilising the upmost quality in fabrics and technical features, offering greater benefits to our customers above all other brands.

Why buy an Outdoor Revolution Product?

Following the success of 2017 and in line with our ambitions and ethos, we are determined to continue our mission to create market leading technology with parities in regard to quality; we have dedicated lines of manufacture to ensure consistency of expertise, exceptional quality control processes, combined with an offer of unequalled value for money. We have the most reliable inflation system on the market and best weather proof and fade resistant fabrics. We have introduced some exciting new additions to the current line-up of features, affording true, stand-out world class products and a must-have brand for the end-user.

"Outdoor Revolution continue to develop and utilise only the very best technologies available in our products"

As the pioneers and innovators within this field, **Outdoor Revolution** are so confident in the reliability of product with an Intelligent Frame that we offer a ***LIFETIME GUARANTEE** on the air tube with an IF Valve...

Designed in the UK for the UK & beyond...

Please check out our website for the most up to date product information

www.outdoor-revolution.com

Explained...

We recommend the Oxygen Airframe is inflated to a pressure of approximately 4 PSI. However, most people inflate the airframe to capacity when first inflating, over and above our recommended pressure. Depending on ambient temperature changes the PSI can increase dramatically and on warm sunny days the air inside the tube will expand causing the PSI inside the tube to increase. If this PSI pressure increases to over 50% more than our recommended 4 PSI through either over inflation or changes in ambient temperature the Intelligent Frame Relief Valve will release the surplus air and maintain the frame at a maximum of 6 PSI. As the temperature cools during the night the pressure will reduce and will continue to ebb and flow during the hottest and coldest parts of the day throughout the period of use. This ingenious system ensures that the tubes cannot be damaged by increased pressures.

Condensation Explained...

Condensation is a completely natural occurrence which happens when warm air meets cold surfaces forming little water droplets usually on the inside of the fabric; like you may experience on windows at home. An average adults' breath produces 1 litre of water vapour every day, which is released into the air; therefore having numerous people sleeping inside will produce a vast amount of water vapour in the air that will condensate. All Outdoor Revolution products are protected with a durable water repellent treatment and all seams are heat sealed. This process prevents water ingress, but can also prevent the moisture trapped in the air inside from escaping, causing condensation. To help ease condensation, we have put air vents on every product and mesh screens on doors, as well as dual zip windows and doors; maximising air flow. We would also recommend taking a micro breathable travel towel to wipe the roof or walls of the product if condensation appears, to speed up the drying process.

Pioneering Technology...

Phoenix mesh. An assisted healing 'smart' material that has the incorporated ability to repair any snag damage caused by usage over time. We have taken the inspiration from biological systems which have the ability to heal after being injured. Simply by gently manipulating and moving the mesh around the damaged area will return the mesh to its original form.

Dura-tech

Dura-tech. Welded tube technology that enables the creation of the innovative single inflation point systems without any troublesome taps and connectors, increasing the usability and practicality of Outdoor Revolution products. This technology provides the most efficient, simple and reliable technology on the market today and carries a Lifetime Guarantee*.

Twin Piping. All 2018 production awnings are fitted with our Twin Piping system - (4mm & 6mm) to allow for greater versatility in connecting to both caravan awning rails and Fiamma style connection rails on some motorhomes.

Lumi-Link - Up/Down Lighting For 2018 all our models now incorporate attachment systems for our own exclusive lighting systems. See pages 48-49 for information and how these lighting systems can transform the ambience of your caravan awning.

Pro.800^{HD}

This premium fabric is an innovative weave of ultra-fine, yarn dyed polyester fibres, designed to create the luxurious look and feel of a traditional awning without the weight. This fabric provides an excellent balance between the usability of man-made and tactility of natural fabrics in order to perform better than heavier denier fabrics and create a sense of refined elegance, head and shoulders above any of its peers.

600^{HD}

This high density Oxford weave fabric, provides the look and feel of a traditional awning whilst maintaining lightweight benefits. This fabric superbly balances the usability of man-made and tactility of natural fabrics to create a technical, high performing fabric that not only creates a sense of luxuriousness but also provides weight and space saving benefits.

Elan

Elise

Pro.Climate.

Climate Fabric incorporates years of learning to produce a technical high performance 100% man made fibre fabric with the breathability of polycotton. This superior fabric provides the ultimate performance of any other awning fabric; marrying the water repellant & technical properties of polyester with the comfort and feel of natural fibres. We are the first commercial manufacturer to develop and introduce this kind of fabric. Another exclusive first for Outdoor Revolution.

Evora

250^{HD}drsEndurance.

This fabric has been woven using the latest techniques in order to provide the longevity and high performance of much heavier denier fabrics, without impracticality and weight constraints. The double rip stop element, interwoven in the fabric ensures the optimum strength to weight ratio, which not only provides a very tactile texture but also provides the key to the incredible strength and durability of this fabric.

ESPORTAIR

150^{HD}drsEndurance.

This fabric has been designed and utilised to deliver exceptionally lightweight yet robust and durable products, allowing smaller pack sizes when folded, where weight and space limitations are a consideration. The double rip stop element interwoven into the fabric ensures the optimum strength to weight ratio which not only provides a very tactile texture but also provides the key to the incredible strength and durability of this fabric.

2018 Model

**OUTDOOR
REVOLUTION**
WWW.OUTDOOR-REVOLUTION.COM

E-SPORT AIR

...with

Dura-tech
SINGLE POINT INFLATION SYSTEM

Single Inflation

...Great looks ...Reliable Performance ...Unequalled Quality.

Available in two width options for caravans, plus a motorhome model with 2 height range options.

E-SPORT-AIR 325

E-SPORT-AIR 400

E-SPORT-ANNEXE

Following the success of the Sport-Air in 2016 and 2017, we have upgraded and improved these products with luxurious benefits and re branded the range as the E-Sport Air. The two size options; the 3.25m weekender and the more spacious 4m still remain, however the fabric has been upgraded to the 250HD DRS Endurance fabric to create a higher performing product, whilst retaining the 'lightweight' Outdoor Revolution trademark. The new contemporary design and softer coloured fabric creates a more modern and desirable look and feel. In addition the air tubes have been upgraded to a larger tube diameter to improve the durability and stability of this product whilst still retaining the much sought after benefit of ultra fast single point inflation. With the ability to accommodate a zip on annexe, compatible as both left and right fitting, this awning offers features which make it one of the most versatile, functional and technical, lightweight awnings in its class.

250^{HD} drs Endurance.

Both the E-Sport Air 325 and 400 are made with our 250 High Density, Double Rip Stop, Endurance Fabric in order to provide unequalled benefits of strength to weight ratio. The innovative Double Rip Stop weave increases the strength and durability twofold whilst retaining the contemporary look and feel and maintaining its lightweight properties.

Dura-tech

SINGLE POINT INFLATION SYSTEM

Single Point Inflation Dura-tech welded frame technology - A durable welded airframe system with high pressure tubes makes these awnings the fastest, most robust and reliable on the market to inflate without any troublesome connecting hoses and valves. The dura-tech frame has been quality controlled to ensure high performance and comes complete with the outstanding Outdoor Revolution Lifetime Guarantee* for peace of mind in years to come.

E-Sport Air 325

Newly refined for 2018 this lightweight single inflation point caravan awning remains the best choice for couples or small families taking short breaks away. The updated 250HD DRS fabric increases the durability and performance of this product. The large tinted windows provide a panoramic view of the landscape whilst reducing the glare from the sun and increasing privacy. Ventilation points and mesh doors placed on each side of the awnings are strategically placed in order to reduce condensation. Available in 3 height options to fit caravans plus 2 motorhome height options.

More info at www.outdoor-revolution.com

The versatility of the two front panels enables the doors to be opened and rolled back to create a canopy style product, or zipped in to increase privacy. Both side door panels have zip in mesh doors, helping to increase air flow & reducing condensation whilst keeping out those pesky crawling critters.

E-Sport Air 400 interior shown with optional annexe inner.
Up/Down Lighting System - Full details on pages 40 - 41.

Zip in Embossed Curtains on all tinted windows increase privacy and security but can be zipped open and rolled back to allow the daylight to flood in. The optional E-Sport Annexe can be zipped onto either side of the product and comes complete with a double micro polyester inner tent; perfect for grandchildren or overnight guests.

Dura-tech
SINGLE POINT INFLATION SYSTEM

CANVAS
ONLY
WEIGHT
18.7kg

Upgraded for 2018, this 4m version provides exceptional space for larger families on longer stays. The innovative 250HD DRS fabric provides an unequalled strength to weight ratio, providing the performance of heavier fabrics whilst maintaining the lightweight properties. The new contemporary design and coloured fabric creates a more modern and desirable look. Large tinted windows increase the lighting inside the awning while reducing the glare from the sun and also maintaining a cooler inside temperature. The Dura-Tech welded air frame system makes this one of the largest yet fastest pitch inflatable caravan awnings available today.

More info at www.outdoor-revolution.com

The optional E-Sport Annexe can be zipped onto either side of the product and comes complete with a double micro polyester inner tent; perfect for children or overnight guests.

The versatility of the three front panels enables the doors to be opened and rolled back to create a canopy style product, zipped in to increase privacy or zipped half in for a combination of both. Both side door panels have zip in mesh doors; increasing ventilation on hot days and reducing condensation.

UPDATED
FOR 2018

**OUTDOOR
REVOLUTION**
WWW.OUTDOOR-REVOLUTION.COM

Elan ...The versatile weekend porch awning.

...with **SPI** Single Point Inflation

...Versatile & Compact ...Fast Pitch ...Perfect Short Stay Porch.

The versatile weekender caravan air porch awning with 2 options...

Elan 280

Elan 340

The 2018 Elan range comprises of two versatile weekender awnings in two different sizes, specifically designed to comfortably fit 99% of all caravans. These awnings provide the perfect amount of additional storage and living space, plus protection from the elements; perfect for couples or small families with pets. Utilising the famed Oxygen Airframe system; these awnings are also the easiest and most efficient on the market to pitch, with only one single tube to inflate.

600^{HD}

The Elan 280, Elan 340, utilise the fantastic 600 High Density Oxford Weave fabric which creates the most lightweight, compact and durable weekender awnings, whilst boasting a contemporary look and feel.

Phoenix mesh.

Incorporating **Phoenix Mesh**; an assisted-healing 'smart' mesh material that has the structurally incorporated ability to repair 'snag' damage caused by usage over time. Simply manipulated, the mesh will return to its original form.

CANVAS
ONLY
WEIGHT
17.0kg

This porch awning is ideal for couples needing that little bit more storage or living space in addition to their caravan. This 2.8m awning is without a doubt the most convenient, efficient and modern looking porch awning on the market. Boasting fabulous features such as the 600 High Density fabric alongside panoramic tinted windows and Phoenix Mesh doors; this porch awning is the ultimate weekend awning.

More info at www.outdoor-revolution.com

The versatile front door can be either zipped halfway and tied back, zipped completely out, rolled back fully and clipped back or alternatively used as a barn style door with the top half folded down (top right). The zip in curtains can also be zipped in to provide a little more privacy.

Shown with Movelite Canopy - Sold Separately.

The tinted windows are purposefully designed to help reduce the glare from the sun and help to maintain a cooler temperature inside the awning.

...Breathable Fabric ...Single Inflation ...Simply Lovely.

A Revolutionary Breathable Fabric Awning in 2 Sizes...

...Say Goodbye to Stiffness and Condensation

Evora 260 Pro.Climate.

Evora 390 Pro.Climate.

Аплене Pro.Climate.

A brand new innovative design for 2018; the Evora Pro Climate range has been designed specifically for hotter climates and continental use. Made with the uniquely designed and exclusive breathable Pro.Climate fabric, this product is truly one of a kind. Comprising of two sizes; 2.6m and 3.9m, these awnings are perfect for small families needing additional sleeping or living space and are compatible with the accessory Pro Climate Annexe, which is both left and right hand fitting. Utilising the famed Dura-tech welded single point inflation system, these awnings are the some of the quickest and most efficient awnings on the market without the complication of troublesome connecting hoses and taps. The 280cm depth is compatible with all camping & caravan club site pitches, both in the UK & abroad.

Pro.Climate.

Designed specifically for increased breathability this high performing fabric is superb for use in hotter climates. The unique weave of this highly technical and 100% man-made Polyester fibre fabric, gives a luxurious touch, whilst providing water resistance, durability and strength.

Phoenix mesh.

Incorporating **Phoenix Mesh**; an assisted-healing 'smart' mesh material that has the structurally incorporated ability to repair 'snag' damage caused by usage over time. Simply manipulated, the mesh will return to its original form.

Dura-tech SINGLE POINT INFLATION SYSTEM

Single Point Inflation Dura-tech welded frame technology - A durable welded airframe system with high pressure tubes makes these awnings the fastest, most robust and reliable on the market to inflate without any troublesome connecting hoses and valves. The dura-tech frame has been quality controlled to ensure high performance and comes complete with the outstanding Outdoor Revolution Lifetime Guarantee* for peace of mind in years to come.

WEIGHT
25.0kg

Launching in to the continental market, this 2.6m caravan awning is the perfect size for any couple or small family holidaying in hotter climates. The breathability of this exceptional fabric helps to reduce internal temperatures and condensation. In addition, this awning boasts mesh zip in side doors and ventilation points.

More info at www.outdoor-revolution.com

The Evora comes complete with traditional white sliding curtains for each tinted window, which provide additional privacy when needed and give this awning a traditional touch.

Brand new for 2018 is the Evora 390 Pro Climate caravan awning. Specifically crafted with the innovative Pro.Climate breathable fabric in order to reduce internal temperatures and aid use in hotter climates; this fantastic product still boasts all the very best benefits and features of Outdoor Revolutions staple products but has a few traditional tweaks. The white sliding traditional curtains are included to give that little bit of extra privacy when required but also give a traditional look and feel to the awning. Large panoramic tinted windows really bring the outside in, whilst reducing the glare from the sun.

- 2 in 1 LED Light & Mosquito killer
- Rain proof
- 3 Brightness settings
- USB Charging - Compatible with the USB 12v Charging Hub

LUMI LANTERN

USB / SOLAR CAMPING LANTERN

Brand New silicone waterproof LED, USB & Solar Charging lantern. The silicon body collapses into 3 different lighting shade shapes and be either hung or set on a flat surface such as a table etc...

- Water proof
- 3 Brightness settings
- USB + Solar Charging - Compatible with the USB 12v Charging Hub

USB CHARGING HUB

12V - 4 POINT USB POWER HUB

Brand New innovative product, moving with today's technology. Essential for charging modern smart phones, tablets, LED lighting etc... whilst camping. The unit is powered by connecting to your vehicles 12v power outlet.

- 4 x USB charging / power sockets
- 1 x 12v extension / power outlet
- Compact design
- Wind in cable tidy internal storage reel

TECH PEGS

The **Tech-Peg** is a technical tent peg, designed with a tough double sided peg head for holding guy lines and pegging down points safely and securely. The twisted nail shaft helps to achieve a better grip and easier insertion into awkward ground. Sold conveniently in their own durable storage box with integrated peg cleaner in the box lid for cleaning dirty pegs before putting them away.

STORM KIT

The **Deluxe Storm Kit** incorporates all you need to secure your awning or tent in awkward, stormy conditions. The kit includes 15 Tech-Pegs for easy pegging and firm hold, 2 adjustable Endurance Storm Straps and a cleverly designed, curved handled mallet, ergonomically designed to aid when placing pegs at awkward angles.

ANGLE Mallet

The **Angle Mallet** is cleverly designed to help place pegs into the ground at the correct angle. The weighted mallet head makes light work of placing pegs into hard ground. Incorporating a handy peg puller at the end of the handle.

MULTI- Mallet

The **Multi- Mallet** is a technical mallet with multi-functional features that make it a 'must have' camping accessory for everyone. Incorporating an extending peg puller to help prevent back ache caused by bending over when extracting pegs. This conveniently retracts back into the lightweight alloy handle when not in use. A convenient brush peg cleaner can be accessed to clean up those dirty pegs before putting them away. A weighted rubber mallet head makes light work of knocking pegs into hard ground.

- Allows grass to breath
- Stops insects coming through
- Rot proof, washable, flame retardant & UV resistant
- None-slip and easy to clean, close weave.
- Fully hemmed with large eyelets
- Strong & breathable

THE
**BIG
LOO**
... IT'S IN THE CAN

Big Loo Portable Toilet is a convenient no fuss portable toilet bucket with a removable lidded seat and robust carry handle.

The perfect convenience for those little trips in the night. Available in 'discrete' grey.

The ever popular **Trio Sleeping Bag** range is designed to compliment products specific to the Outdoor Revolution range of awnings, driveaways and tents. These premium quality sleeping bags have a soft micro polyester finish and are 2 x 175gsm in thickness. The Sleeping Bag has a pillow envelope to fit a matching pillow in.

Available in 3 sizes:
Double - 235cm x 170cm
Single - 235cm x 100cm. (Two bags can be zipped together to create a double)
Tots Infant - 130cm x 70cm

The **Trio Pillow** is a camping pillow specifically designed to match the trio stripe on the sleeping bags. The pillow comes in a small compact bag and the pillow expands when out of the bag. It slots in to the pillow slot on the Trio Sleeping Bag range.

The **Trio Stripe Table Cloth** is designed to coordinate perfectly with the Trio Stripe range of camping accessories, awning and tent products. It comes in its own compact pouch bag with draw string for convenient storage.

Fabric - Machine washable Micro Polyester
Size - 150cm x 80cm

The **Air Pod** Inflatable Inner Tent is the perfect sleeping solution for unexpected or last minute guests. The versatility of this inflatable inner tent allows it to be placed anywhere inside your caravan awning, driveaway awning or tent. Constructed using **Dura-tech** single point inflation technology with Dura-welded low diameter air tubes; this clever inner tent can be inflated and placed in position in a matter of seconds. Nothing could be quicker or simpler!

Incorporating our acclaimed **Phoenix Mesh** zip back front panel for added breathability, Cool Grey Micro Polyester fabric, internal accessory pockets, **Lumi-Lite** lantern hanging point and waterproof PE sewn groundsheet...

...We have thought of everything.
