Family Tents - 2018

No one knows how to make air tents quite like how Outdoor Revolution know how to make air tents...

Outdoor Revolution take great pride in designing and making superb quality tents that feature industry leading technology and fabrics, whilst still maintaining a contemporary, modern aesthetic. Through carefully listening to the demands of our customers, our dedicated UK design team have created the most reliable, highly functional, easy to pitch and visually striking range of tents on the market today.

We haven't just created tents; we have created unique, versatile and flexible living spaces where families can enjoy their precious leisure time together.

"Outdoor Revolution continue to develop and utilise only the very best technologies available in our products"

Rue Trammen

Why buy and Outdoor Revolution Product?

Following on from our 2017 success, we are now continuing on our mission to create products utilising market leading technologies with parities in regard to quality and absolute reliability. This is backed up with our unrivalled *Lifetime Guarantee on air tubes. With our dedicated manufacturing lines, testing facility and stringent quality controls, we can ensure the consistency of quality, whilst always providing unequalled value for money. Outdoor Revolution have the most reliable inflation system on the market and the best quality weather proof and fade resistant fabrics available. For 2018, we have further introduced some exciting new features and products additions, resulting in stand-out world class products from a trusted premium UK brand.

2018 Product Range Index

O-Zone 6.0 XTR Vario  6 - 9  	Airedale 7.0  18 - 19  	Flex 2  28 - 29

Explained...

We recommend the Oxygen Airframe is inflated to a pressure of approximately 4 PSI. However, most people inflate the airframe to capacity when first inflating, over and above our recommended pressure. Depending on ambient temperature changes, the PSI can increase dramatically and on warm sunny days the air inside the tube will expand causing the PSI inside the tube to increase. If this PSI pressure increases to over 50% more than our recommended 4 PSI through either over inflation or changes in ambient temperature the Intelligent Frame Relief Valve will release the surplus air and maintain the frame at a maximum of 6 PSI. As the temperature cools during the night the pressure will reduce and will continue to ebb and flow during the hottest and coldest parts of the day throughout the period of use. This ingenious system ensures that the tubes cannot be damaged by increased pressures.

Condensation Explained...

Condensation is a completely natural occurrence which happens when warm air meets cold surfaces forming little water droplets usually on the inside of the fabric; like you may experience on windows at home. An average adults' breath produces 1 litre of water vapour every day, which is released into the air; therefore having numerous people sleeping inside will produce a vast amount of water vapour in the air that will condensate. All Outdoor Revolution products are protected with a durable water repellent treatment and all seams are heat sealed. This process prevents water ingress, but can also prevent the moisture trapped in the air inside from escaping, causing condensation. To help ease condensation, we have put air vents on every product and mesh screens on doors, as well as dual zip windows and doors; maximising air flow. We would also recommend taking a micro breathable travel towel to wipe the roof or walls of the product if condensation appears, to speed up the drying process.

Pioneering Technology...

Phoenix mesh. An assisted healing 'smart' material that has the incorporated ability to repair any snag damage caused by usage over time. We have taken the inspiration from biological systems which have the ability to heal after being injured. Simply by gently manipulating and moving the mesh around, the damaged area will return the mesh to its original form.

Dura-tech

Dura-tech. Welded tube technology that enables the creation of the innovative single inflation point systems without any troublesome taps and connectors, increasing the usability and practicality of Outdoor Revolution products. This technology provides the most efficient, simple and reliable technology on the market today and carries a Lifetime Guarantee*.

Lumi-Link - Up/Down Lighting For 2018 all our models now incorporate attachment systems for our own exclusive lighting systems. See pages 48-49 for information and how these lighting systems can transform the ambience of your tent.

Vario Moveable Door System. A clever door system which allows the front door to be fully removed and zipped back into the tent in a set back position to create an open canopy front. The system has the versatility of adding options such as full mesh doors or a solid plain door front.

Pro.Climate.

Pro Climate Fabric incorporates years of learning to produce a technical high performance 100% man made fibre fabric with the breathability of polycotton. This superior fabric provides the ultimate performance of any other awning fabric; marrying the water repellant & technical properties of polyester with the comfort and feel of natural fibres. We are the first commercial manufacturer to develop and introduce this kind of fabric. Another exclusive first for Outdoor Revolution.

AIREDALE 6.0
PRO CLIMATE

600^{HD}drs Endurance.

The 600HD Endurance double rip-stop fabric is the most robust of all of our tent fabrics. It has been woven using the latest textile manufacturing techniques to provide the maximum longevity and performance of any premium tent fabric. The fade resistant fabric ensures a superb quality, high performing product.

CROSSOVER

250^{HD}drs Endurance.

The double rip-stop in the 250 High Density fabrics ensures the optimum strength to weight ratio of any awning fabric. All Outdoor Revolution fabrics are woven using the latest textile manufacturing techniques to provide the longevity and performance of much heavier denier fabrics without the impracticality and constraints of their weight. Fade resistance and longevity is guaranteed to give the customer a quality performing product at an affordable price.

O-ZONE 6.0 XTR

150^{HD} Hex Endure.

The 150 High Density Fabric is designed to deliver lightweight yet robust products, allowing smaller pack sizes when folded where weight and space limitations are of consideration. The complementary Hex detail on the fabric give a distinct contemporary look to ensure the product stands out from the crowd.

AIREDALE
RANGE

100^{HD} Endure.

Superb lightweight fabric designed specifically and utilised for low-budget entry level products whilst still maintaining the high quality performance and integrity found in all Outdoor Revolution products.

FLEX

68^{HD} Hex Endure.

This lightweight fabric has been specifically designed to deliver lightweight compact products whilst maintaining strength and durability. Woven using the latest textile manufacturing techniques this fabric is designed for longevity and performance. The embossed Hex print gives a more technical look and feel to the drive away awnings.

HENDRIX

Outdoor Revolution's flagship family air tent with unrivalled upgrades for 2018

The O-Zone 6.0XTRv is the ultimate family air-framed tent. Its flexible living space and enlarged bedrooms for 2018 have been cleverly designed to maximise enjoyment and create a welcoming space. The living space can be easily extended using the versatile Vario windowed door which can be moved to the front or the middle to create an integrated porch area on hotter days. This market leading 6 berth air tent has the ability to clip in an extra bedroom inner to create sleeping space for an additional two people. This used in conjunction with an optional solid door can create a separate sleeping area for overnight guests or older children. The vast panoramic windows and enormous living space make this the perfect base for family adventures.

More info at www.outdoor-revolution.com

Movable zip-off Vario door

Creates a separate open fronted porch area on warmer days or a cavernous living area for the large family who crave for more space.

- O-Zone 6.0 XTR v Enclosed Canopy - OR18842
- *Two Berth Inner Tent - OR17564
- Lumi-Link Tube Light Kit - OR18025 / Lumi-Mosi Light - OR18015
- Up/Down Lighter Shades - OR18000 / Lumi Light - OR18010

Model	Width	Length	Height	Weight	Pack Size
O-Zone 6.0XTRv	420cm	800cm	235cm	50.6kg	84x62x62cm

Colour - Graphite/Ivory

Compatible with **LUMI-LINK** & **UP/DOWN** lighting systems

New for 2018 - King Deluxe 240cm deep bedrooms with removable compartment

Highly functional & versatile, multi configurable, extra deep, standing height bedrooms to suit the modern family who demand the best.

O-ZONE 6.0 XTR VARIO - ACCESSORIES

O-Zone 6.0 XTR Vario SNUG RUG - Designed to give additional luxury under foot, the Snug Rug has a thermal backing and padding to ensure additional comfort to any stay. The Snug Rug comes complete with moveable 'door mats' to accommodate muddy footwear.

O-Zone 6.0 XTR Vario LOUNGE LINER - Creates a relaxing ambience to the interior of the tent by providing shade from roof glare in bright conditions. The added layer of insulation helps to keep the tent cool on warm days & warmer on cool days by creating an air pocket between the liner and the tent roof, helping to reduce condensation.

2 PERSON INNER TENT - Clip-in inner tent provides fantastic additional sleeping space for overnight guests. Made from cool grey microfibre fabric to assist in a comfortable night's sleep and plenty of mesh venting to ensure optimum air circulation.

O-Zone 6.0 XTR Vario MESH DOOR - The standard door can be replaced by the optional Mesh Door. The Phoenix Mesh Door increases airflow whilst helping to prevent insects entering the tent, or pets and small children from escaping.

Phoenix self healing mesh

O-Zone 6.0 XTR Vario SOLID DOOR - This addition really utilises the full potential of the O-Zone 6.0 XTR Vario, enabling the user to create a superb concealed storage space or a divided sleeping compartment for overnight guests or older children.

ENCLOSED CANOPY

The **O-Zone ENCLOSED CANOPY** is a superb addition to the O-Zone 6.0 XTR Vario, creating additional space and protection from the elements; great for providing extra shelter for cooking and entertaining on hot summer days or alfresco dining on an evening. The Enclosed Canopy also provides incredible storage space for bikes or furniture, ensuring the main living space of the tent is as comfortable as possible.

O-ZONE CANOPY

The **O-Zone CANOPY** simply zips on to the front of the tent to provide a fantastic sun canopy, or great covered cooking space. Simplistic in design and taking just minutes to connect, this essential addition packs down easily and neatly into its own individual carry bag.

Outdoor Revolution's Airedale 4.0 ...The compact but perfectly formed Airedale 4 air-framed tent

Making a welcome return to the product line-up for 2018; this easy to erect, lightweight air tent is perfect for impromptu getaways. The space allocation in this tent is perfectly balanced between the sleeping, living and relaxing space of the integrated porch area. Large tinted windows, all with privacy blinds, create a light and airy environment. Superb for smaller families or couples who require a bit more space, the Airedale 4's contemporary styling and flexible space provides an eye-catching, comfortable camping solution.

King Deluxe 240cm deep bedrooms.

The upgraded deeper King Deluxe bedrooms offer ample room for double air mattresses with increased standing height to the rear. The bedrooms can be opened up as one giant sized deluxe bedroom, split into either 3 double rooms or 1 double and 1 king size room.

Outer Height - 210cm / Inner Height - 195cm

The perfect large family air tent crammed with features

The Airedale 7.0 fills the gap perfectly between the Airedale 6.0 and the cavernous Airedale 8.0, designed for larger families who require more space. The ability to clip in an additional two berth inner tent increases the sleeping capacity to 8 and the handy integrated utility porch with a hanging rail can be used for additional storage or as an overnight toilet area. The large porch is an ideal space to relax and the integral windowed front door can be sealed to increase the enclosed living space. Phoenix mesh doors, alongside large ventilation points provide ample ventilation and the large tinted windows certainly make the Airedale 7 “a room with a view”. All windows are fitted with zip in blinds to guarantee 100% privacy.

Zip back front door with large panoramic tinted windows.

Creates an open fronted canopy area on warmer days or a separate divided front porch entrance area.

Vast Living Space, King Deluxe 240cm deep bedrooms with removable end bedroom, Utility/Storage Side Annexe.

When we designed this tent we thought of everything, making it one of the most feature packed large family air tents on the market today.

Outdoor Revolutions largest, feature packed, family or group air tent

The Airedale 12.0 is Outdoor Revolution's largest tent with three separate sleeping pods, each accommodating 4 people. Each bedroom has a removable central divider in order to make a larger more luxurious sleeping space. There are the two central skylights and large panoramic tinted windows which illuminate the sizeable central living area. The Airedale 12.0 has a fantastic front porch space with a zip in solid front door to give shelter from the sun's rays. This also provides a great space for cooking, or when not in use, a superb "garage space" ideal for storing furniture, bikes or other equipment. The Airedale 12.0's striking looks are matched perfectly in it's practicality, usability and utilisation of maximum space.

More info at www.outdoor-revolution.com

Large front porch area with solid panel zip back entrance door.

The versatile front canopy offers shelter and an ideal cooking area, whilst on a night it can be used for hidden storage with the solid panel front door.

New Phoenix Mesh Inner Door Panel.

Large well lit, full standing height central living space, with 3 cavernous ventilated 4 person bedrooms.

The spacious central area offers unrivalled living space, perfect for large families or large groups. The set back bedroom fronts with pelmets increase the perimeter standing height even further and incorporate handy storage pockets to keep things tidy.

The traditional bell tent gets a modern makeover

The Crossover has the nostalgic design of a traditional bell-tent combined with an integrated multifunctional front porch. Made with high-quality modern materials and offering outstanding features and benefits, the Crossover boasts a contemporary look. Sleeping up to 4 people in two double bedroom compartments and suitable for double air beds, making it perfect for small families and couples. The durable 600HD DRS fabric provides the optimum strength-to-weight ratio of any fabric on the market. The tent is easily pitched with two internal steel poles and a single front canopy pole. This creates an additional large functional shelter/living area to provide added protection from the elements. The clever internal design gives a superb feeling of space and freedom in the living area.

HENDRIX - FESTIVAL TENT

Incredibly quick & easy to pitch, single tube airframe tent

Outdoor Revolution's Hendrix is a superb, single-inflation-point, small air tent and an ideal companion for festival goers or spontaneous trips thanks to its simplicity and rapid inflation. The Hendrix utilises the celebrated Inspiral single inflation point system, where the tube neatly weaves throughout the tent's inner to create an incredibly strong endoskeleton which can be inflated within seconds. The ultra-lightweight 100HD fabric is designed to pack down quickly and easily into the small carry bag provided. This product is ideal where weight, pack size and speed are of the essence. The fabric has a modern Hex style technical print to complement the product's simple design lines.

Features

- Fabric: **68^{HD} HexoEndure.**
- Frame: Single Inflation Point Inspirial System
- Valves: Dynamic Speed Valve + Intelligent Frame Relief Valve (LIFETIME GUARANTEE)

Also Includes...

- Sewn in PE Groundsheet
- Tinted Windows
- Embossed Toggle-In Curtains
- 2 Berth Micro Polyester Inner Tent
- Front Zip Up Canopy Door (Poles sold Separately)
- Double Action Hand Pump

A full zip up front door creates a large front canopy when used with the optional steel canopy poles.

The fastest pitch festival air tent on the market today. The Hendrix is a compact no fuss 2 person tent, designed with music festivals in mind.

Optional Extras:

- Canopy Poles - POL210
- Trio Sleeping Bag - OR15000
- Trio Twin Sleeping Bag - OR15005
- Trio Tots Sleeping Bag - OR15010
- Trio Pillow - OR15014
- Jet Stream Electric Pump - OR17010
- Jet Stream Electric Twin Pump - OR17040

Model	Width	Length	Height	Weight	Pack Size
Hendrix	200cm	335cm	145cm	12.5kg	73x35x32cm

Colour - Graphite/Warm Grey

Inspirial Single Tube, Single Inflation...

...for Speed, Simplicity & Strength

The Hendrix utilises the celebrated Inspirial single inflation air tube system.

The tube snakes around the tents inner to create a solid frame which can be inflated within seconds using the dual-action pump provided.

CRUIZ 6 EX

OXYGEN
AIR FRAME

Amazing value with advanced high-end technical features

The Cruz 6 EX offers unequalled value for money. This superb tent affords the perfect allocation of usable space; split between the dark roof sleeping area, ample internal living space and a useful front extension canopy. The 3 air frame tubes are easily inflated and deflated, and the Cruz 6 EX can be fully pitched in a matter of minutes. The Cruz 6 EX has one fibreglass pole, which supports the canopy, is very lightweight (thanks to the 100HD fabric) and fits neatly in to its own storage bag. The side door and front door can be opened and fastened back to maximise airflow and create a shelter from the elements

Cruiz 6 EX	390cm	500cm	220cm	19kg	78x40x40cm

Colour - Graphite/Ivory

Spacious interior with 6 person inner tent.

Functional full front canopy extension with fibreglass pole.

Providing shade from the sun & shelter from the elements; perfect for cooking under.

Compact, fast pitch, single inflation air frame tent... Perfect for festivals or exploring

The Flex 2 is a compact, lightweight, 'twin skin' single inflation air frame tent. Its compact design enables it to be easily stored in the boot of a car, making it the ideal choice for impromptu nights away. The inner utilises microfibre polyester and Outdoor Revolution's exclusive Dura-tech welded, single inflation point air frame. The outer shell is crafted from 100HD polyester and provides great water repellency and durability. The Flex 2 can accommodate two people but is also an ideal partner for the independent adventurer. The bright green outer shell is highlighted with contrasting orange trim and guy lines, to give the Flex a very technical look. The Flex is the ideal small 2 person, compact tent, providing a sturdy shelter with ample protection from elements and the freedom to explore.

More info at www.outdoor-revolution.com

Compact 2 person air tent designed for speed and convenience.

The superb lightweight 100HD Endure fabric is designed to give high quality performance and integrity to the Flex 2.

TECH PEGS

The **Tech-Peg** is a technical tent peg, designed with a tough double sided peg head for holding guy lines and pegging down points safely and securely. The twisted nail shaft helps to achieve a better grip and easier insertion into awkward ground. Packaged conveniently in their own durable storage box with integrated peg cleaner in the box lid for cleaning dirty pegs before putting them away.

STORM KIT

The **Deluxe Storm Kit** incorporates all you need to secure your awning or tent in awkward, stormy conditions. The kit includes 15 Tech-Pegs for easy pegging and firm hold, 2 adjustable Endurance Storm Straps and a cleverly designed, curved handled mallet, ergonomically designed to aid when placing pegs at awkward angles.

ANGLE MALLET

The **Angle Mallet** is cleverly designed to help place pegs into the ground at the correct angle. The weighted mallet head makes light work of placing pegs into hard ground and incorporates a handy peg puller at the end of the handle.

MULTI-MALLET

The **Multi-Mallet** is a technical mallet with multi-functional features that make it a 'must have' camping accessory for everyone. It incorporates an extending peg puller to help prevent back ache caused by bending over when extracting pegs. This conveniently retracts back into the lightweight alloy handle when not in use. A convenient brush peg cleaner can be accessed to clean up those dirty pegs before putting them away. A weighted rubber mallet head makes light work of knocking pegs into hard ground.
